

February half term 15th - 19th

Monday This morning we will be learning some of the traditional Japanese art of origami. We will be using a variety of coloured paper to see who can create different bugs and minibeasts. We will also be making fortune tellers and paper aeroplanes! After lunch we will be heading down to the woods to collect lots of leaves, twigs and branches ready for later on in the week. P.s Don't forget your wellies and waterproofs!

Tuesday Today won't be focused on the minibeasts and insects as much, today we are heading over to Paradise Park to see the larger animals and see the different birds that eat insects and minibeasts! After meeting all the animals and having our lunch we will be heading into the jungle barn to explore all the play equipment there. Additional charge of £7.50 please bring a drink, waterproofs and a change of clothes

Wednesday Today we are going to get back to the insects and minibeast subject! We will be starting our day by making some butterfly feeding stations for the garden! After that we will need our hammers and nails and hardhats, as we are going to be building our very own bug hotel for the garden! We will be working together to design, measure and build the best bug hotel ever!

Thursday As yesterday's hard building is now over and all the finishing touches have been made, today we are going to take a different approach for creating! Today we will be putting our baking skills to the test when we create our very own slow cooker chocolate fudge! When it is cooked and set we will turn it into spiders. We will also be making some creepy crawly cupcakes!

Friday After a week of insect and minibeast activities, we will be ending our week with a trip down to Kimberley park in the morning on a bug hunt! Hopefully we will find some exciting insects that may need a new home in our hotel! Then we will be heading back to nursery just in time for lunch! When lunch is all finished we will be ending our bug week by settling down on the cushions to watch Bee movie.
