

## MAY HALF TERM

30<sup>th</sup> May 2017 – 2<sup>nd</sup> June 2017

## ANIMAL WEEK

**Monday 29th May:** Closed for bank holiday.

**Tuesday 30th May:** Today we will be getting into the cars and heading over to Roskilly's for the day. We will go and meet all the animals and hopefully try and feed some of them. After that we will be taking a stroll down to the lake to feed the ducks and see if we can discover any pond life. After a picnic lunch we will be ending our trip with an ice-cream of course! We will end our trip with a visit to the milking parlour and hopefully we will get to see some of the cows getting milked.  
\*additional cost of £3.00 which includes an ice-cream. Please bring a packed lunch and a drink, depending on weather  
\*please provide appropriate clothing/footwear\*

**Wednesday 31<sup>st</sup> May:** We are going to have a walk in the local woods in the morning and collect materials for the afternoon's activities; including twigs, leaves, moss, and anything else we think is interesting. In the afternoon we are going to make our very own bug hotel with our treasures from this morning and also make some colourful bird feeders to hang in the garden. \* please provide appropriate clothing and footwear\*

**Thursday 1st June:** Today is pet day! If you have a small friendly pet at home that you'd like to bring to holiday club today is the day! (ie hamster, rabbit etc). We will also be making our own home-made cat and dog treats, that we can either take home for our own dogs and cats, or give as a present to a dog or cat owner. Obviously we can't leave out the humans, so we will be making some animal shaped biscuits for us to eat as well!

**Friday 2nd June:** Today we will be heading up to Rachel's house to meet her chickens and her new pigs; we will learn about what the chickens and pigs eat and how they are cared for and hopefully we can collect some eggs too. After that we will be getting the parachute out for some group games and group activities then heading back to holiday club for some lunch. In the afternoon we will make some cakes using our newly collected eggs.
